December 2020

Tips and advice on EMRs, digital health and virtual care tools you can use NOW

Tip endorsed by OntarioMD Peer Leaders: Resuming Cancer Screening During COVID-19 (Part 2)

Ontario Health (Cancer Care Ontario) and OntarioMD have worked together to give you some EMR tips to help you start to screen your patients again for cancer. These tips should make it easier for you to identify higher-priority patients for cancer screening in your EMR systems. Read the full tip

Have a Happy and Secure Holiday – Privacy Tips

Before you take a well-deserved break for the holidays, OntarioMD would like to remind you to stay vigilant when using the Internet over the holidays and throughout the year. If you need to access your EMR remotely, or conduct research, please exercise caution on the websites you visit to make sure they are secure and will protect the privacy of your personal or confidential information. Check out some useful tips to help you protect your data.

New Hospital Sites in Northern Ontario Now Sending eNotifications

At the end of November, 18 hospitals, most with multiple sites in northern Ontario, began sending eNotifications to physicians. An eNotification is a near real-time electronic message sent through HRM® to primary care providers to notify them when their patients are discharged from the Emergency Department or are admitted or discharged from in-patient units. They also signal that additional reports will be arriving in your EMR via HRM.

SFID (Sending Facility ID)	HRM Sending Facilities	Facility Type
2084	Anson General Hospital	Acute

If you'd like to know more about HRM and eNotifications and how to start receiving reports from hospitals into your EMR, contact your OntarioMD representative or support@ontariomd.com.

Digital Health and Virtual Care Tools

Insights4Care Dashboard and Advisory Service – New Resources

The Insights4Care (i4C) Program has added new resources for breast, cervical and colorectal cancer prevention and screening as well as information on how to earn Mainpro+ credits by using the i4C Dashboard and Advisory Service. The i4C Dashboard and Advisory Service help you unlock the value of your EMR data for better patient outcomes. Once you see your EMR data displayed in indicators on the Dashboard, our team will work with you to understand what's going on with your patient population and offer advice for practice improvements while you earn Mainpro+ credits. Find out more or contact support@ontariomd.com.

OntarioMD Virtual Open House – Thanks for Attending!

OntarioMD held its first Virtual Open House on November 19 to coincide with Digital Health Week. We presented an overview of who we are and what we do and opened the virtual floor to any questions physicians wanted to ask us. If you missed our Virtual Open House, don't worry, there will be more next year or you can watch the recording.

Need Help with Your EMR/Digital Health or Virtual Care Tool?

If you would like some help with your EMR, a digital health tool or a virtual care tool, OntarioMD staff are available to help you! If you're interested in any of the digital health tools mentioned in this issue or other tools like OLIS, i4C Dashboard, EMR-integrated eConsult, and Privacy & Security Training, our staff can get your practice connected. Just contact support@ontariomd.com and help will soon be on the way!
