

# HEALTH REPORT MANAGER

## Faster follow up and better care transitions

Timely communication and information sharing between hospitals and physician practices is critical for faster follow up and better care transitions for patients after they leave a hospital or specialty clinic. Health Report Manager (HRM) delivers patient reports from participating hospitals and specialty clinics directly to your patient records in your OntarioMD-certified EMR. You can follow up sooner with your patients, if required, to prevent post-discharge complications and reduce the likelihood of readmission.

## Paper report delivery

vs

## Electronic report delivery

## What can HRM do for your practice and your patients?

- Faster follow up after patients are discharged from almost any hospital in Ontario
- Improved care transitions and coordination of community-based services
- Keep patients safe with up-to-date information
- Reduce the likelihood of complications and readmissions

## Electronic reports delivered by HRM to your EMR:

- Are secure and arrive within minutes
- Include eNotifications of real-time ADT messages
- Are searchable to make it easier to identify trends
- Include hundreds of different report types and OTN telehomecare reports
- Enable more efficient workflows
- Reduce your printing and faxing costs and the administrative burden of handling paper

**500+** sending sites  
(211 hospital sites, and  
295 specialty clinics)

**10,000+** clinicians  
use HRM in Ontario

**23 to 33** minutes  
of practice time saved  
per physician per day

HRM is an award-winning digital health tool that has become indispensable to clinicians, hospitals and specialty clinics all over Ontario. Please visit [OntarioMD.ca](http://OntarioMD.ca) for the full list of sending facilities and the types of reports they are sending through HRM.

## How can you get HRM?

If you're interested in HRM, please contact your OntarioMD Practice Advisor or [support@ontariomd.com](mailto:support@ontariomd.com)

If your practice is joining an Ontario Health Team, HRM and eNotifications have been identified as enabling digital health tools. If you are not yet using HRM and use an OntarioMD-certified EMR, please contact: [support@ontariomd.com](mailto:support@ontariomd.com)

OntarioMD supports physician practices, nurse practitioner-led clinics and Ontario Health Teams across Ontario to improve their use of electronic medical records (EMRs) and other digital health tools to provide patient-centred, integrated care. Our staff have extensive knowledge of clinician practices and workflows and support them to adapt to new technology. Our quality products and support have made us a successful advisor to more than 17,000 Ontario clinicians and a valuable delivery partner to organizations that need to deploy their products to clinicians in all parts of the province. Our dedication to providing value to the Ontario health system has been recognized with awards for excellence, leadership and innovation.
